Pickett Fences American Homes

Year

2021

Project Area

37 Acres

The Preserve at Lake David, Groveland, Florida

Located on a unique property just to the west of Downtown Groveland, The Preserve at Lake David is a geographically private enclave community surrounded by wetlands and forests. This community utilizes innovative residential design in order to maximize value and create great community design. Once built the community will contain about 80 dwellings on lots ranging from just 32' to 60'. Envisioned with a Florida-friendly low-impact design overall, the entire community will be encircled by a low-impact trail along the wetland buffer, providing a great amenity for residents.
